TRAINING AND PLACEMENT DEPARTMENT

Two-Week Internship Program for B. Tech I Year Students at
St. Martin's Engineering College (SMEC)

To align with industry requirements, **St. Martin's Engineering College** is conducting an **internship** program on **Web Technology** for **B. Tech I Year students**. This program is designed to strengthen their foundation in website design, offering a blend of theoretical knowledge and hands-on experience with real-world applications. Through practical exposure, students will gain valuable insights into industry practices, equipping them with the skills needed to excel in their careers and stay competitive in the evolving tech landscape.

The Two-Week Internship sessions are conducted Department-wise, as follows:

Forenoon: CSE(AI&ML), CSE and EEE

Afternoon: CSE, ECE

Topics Covered:

1. Webpage development, Facebook login page and display properties
2. Iframe, audio, video tags with attributes, simple registration and login forms.
3. Revision of HTML basics, VS code and form & input tags
4. Links, CSS styles, buttons, task- Creating a personal information blog

Day: Saturday

Date: 01-03-2025

Venue: Subhas Chandra Bose Block

In today's live session, trainers covered a range of essential web development topics, helping students gain both theoretical knowledge and practical skills. The session began with webpage development, where students explored designing a Facebook login page while understanding key display properties. Trainers then introduced iframe, audio, and video tags, explaining their attributes and demonstrating their use in embedding multimedia elements. A detailed revision of HTML basics was conducted, including an overview of VS Code, form, and input tags, ensuring that students had a solid grasp of foundational concepts. The session also focused on links, CSS styles, and buttons, which play a crucial role in enhancing web pages. To reinforce their learning, students were assigned hands-on task—
creating a personal information blog, allowing them to apply the concepts learned and improve their practical implementation skills.

Day 5 concluded successfully with insightful guidance from trainers, active engagement from students, and effective supervision by faculty, ensuring a productive learning experience
